

# Frog and Duck Pond

A "quack" here and a "ribbit" there!

Mostly pavement or tarmac. Section of woodland/ grass walking.

Easy Access 24m Circular 1.8km | 1.1m 00:45

- S** Starting from the Creigiau Inn (with the building behind you), head straight over the road (drop kerb available opposite the playground). When on the other side of the road, head L towards the junction and cross the next road at the zebra crossing. On the other side, turn L and immediately R to go down a path past some benches and into the woodland. Continue along this path and over a small bridge, eventually leading you out onto Parc Castell-Y-Mynach.
- 1** Almost u-turning to your L, take the path that leads behind some properties (with garden fencing on your R). When at the end of this path, turn R and follow this onto Parc-Y-Felin. Here, follow the road, exiting the estate. At the junction take a L, once again following the road that curves round to the R, exiting the estate. At the next junction (onto Tynant road), turn L, sticking to the pavement. You will soon spot Creigiau Frog and Duck Pond on your L. Feel free to take a rest here and see what can be spotted in the pond.
- 2** When ready, follow the bridleway sign (blue horse) along the grass with houses to your R. Continue to follow the path round to the R through a path that leads behind the houses. You will soon come to an end of an estate with a round about. Here go L and follow the road until you meet a T-junction. Turn R, following the curving road, eventually curving round to the L, taking you out onto Cardiff road.
- 3** Cross the road when ready, using the drop kerb if preferred, turn L and follow the pavement till you come back to the Creigiau Inn at the start point.

Enjoy this ramble? There are 145 Paths to Wellbeing routes to explore across Wales!
