Paths to Wellbeing

Putting walking at the heart of communities

Improving access to nature in Wales

Ramblers Cymru's Paths to Wellbeing project is a great example of how the Ramblers open the way for everyone to enjoy the simple pleasures of walking in nature. The project puts walking at the heart of 18 communities across Wales by giving them the tools and training needed to identify, design and improve new and existing walking routes.

We have provided the selected communities the tools and training needed to identify, design and improve new and existing walking routes. Together with 22 local authorities, Wildlife Trusts Wales and Coed Cadw, the Woodland Trust in Wales, we have also been enhancing the local environment for nature to thrive. With activities

such as tree planting, wildflower sowing and wildlife activity days, providing plenty of activities for those of all ages and backgrounds.

Led by the community, for the community

Ramblers Cymru believes that by working alongside communities to engage with their local path network and green spaces, together we can create sustainable walking opportunities for all. Ultimately this will connect people to the health and wellbeing benefits of nature and walking.

We are working with local volunteers and community members to deliver their community needs. Those taking part will gain new skills with expert support and guidance from Ramblers Cymru and our partners.

Follow this waymark when out walking on any of the included routes.
