Starting from the information board in the middle of Rhayader, head along the B4518 (Bridge Street) toward the Elan Valley. Cross the bridge and turn L to go past the Church which will be on your R. Follow the road - you are now on part of the Wye Valley Walk. Continue along the road for a little while and then turn R down a farm track to remain on the Wye Valley Walk. Follow the track on a slight decline towards the farmyard, as you come into the farmyard turn L and go through the gates past farm buildings on either side.

1

Continue straight along the track, there is a dismantled railway on your R and woodland on the L. Continue along the track until you come to a road - turn R. Follow the road on a slight downhill towards a farmyard, turn L out of the farmyard through multiple gates and head down the track. You will then see the river and the wonderful Glyn Bridge - a wooden suspension bridge. Cross the bridge to come to Junction Pool - where the Wye meets the Elan.

2

Once you have crossed the bridge, turn R and follow the track with the river on your R. Go through the gate and join the road. Continue straight for a short distance before turning L to go through the gate and join the footpath in the field. Head diagonally R through the field towards the woods and across the stream, go over the stile into Dolfor Woods. Make your way through the woodland heading slightly uphill, go through the wooden gate and into the field. Head across the field toward the houses keeping the fence on your R.

3

Turn R at the fenced garden land and head downhill. Go through the field gate on your L to join the track and turn immediately R and then L. Follow the track and head past the barn conversions on your L. Head through the gate onto the farmland along the track. Where the field splits, go through the gateway on the L and keep the fence on your R. There will then be a gate on your R, go through this and head diagonally L across the field. Go over the stile and continue in the same direction towards the farm.

4

When you come to the farm, turn L to go uphill, keeping the fence on your R. Go through the pedestrian gate and turn R, head along the track and at the junction turn L. There is a waymark post here, be mindful to not follow the bridleway and stick to the footpath. Cross the footbridge and turn R, remaining in the same field. Head through the field keeping the fence line on your R. Go through the gate and continue straight with the fence line on your L. Head along the track through the gates and at the road junction turn R.

5

Follow the track, when you join the road turn R. Follow the road, you will go past a farm on your L. Shortly after the farm the road bends to the L and you will cross Dol-a fallen bridge, once over the bridge turn R and join the cycle path. Continue along the cycle path - at the end of the cycle path turn R onto the B4518 and head straight along the road back into the town and the information board.
