- S** Starting from Coity Castle. If you have travelled by car there is on street parking available at Heol Yr Eglwys near St Marys Church Hall. Head R to follow the road past the Church grounds and war memorial. Walk along the road and take a L at the public footpath sign, through the pedestrian section of a large gate. You will see this gate just before the pavement ends. Head diagonally R into the field where the path will drop down to a cluster of trees and a stile in the fence line.

1 Head over the stile, follow the boundary across the field to a stone stile and signpost. Take a L, walk the path that skirts the field via a gate. At the L corner of the field, go L through the gate, follow a short fenced path, L through this gate and enter the field via another gate. Keeping the hedgerow on your L, make your way uphill to the top L corner (this section of the path can become muddy) where you will find a gate. Enter the grassy field, keeping the boundary close on your R which will lead you to a gate.

2 The right of way here will bring you L out of the gate. Head uphill to the top of the field keeping the boundary on your L. Once at the top boundary, turn R and walk diagonally down towards the opposite corner of the field. Follow the path through the vegetation which will lead you to steps ascending to a gate. Follow this designated path through the woods, which is fenced either side of you. It is well signposted and zig-zags, eventually leading you to another kissing gate.

3 Turn L out of the gate, heading upwards until the path merges into a newer black path underfoot. Walk this path until it meets the main road and turn L. Walk down the road (approximately 80 meters) and turn R when you see the public footpath sign. Head along this path around Parc Prison. When the wall to your L ends, take the green path that splits L toward houses. Head on in front of the houses until they finish and turn L onto the green toward a kissing gate that enters the top of Parc Derwen.

4 Continue straight over the road, walk the pavement on the L hand side, past the traffic calming system and take the second L. At the next junction, take a R then the first L onto Trem Gwlad yr Haf followed by a R at the end of the road as you meet the playing field. At the corner of this field look for the signpost and follow the track L, walking the grassy path at the bottom of the bank. Re-join the tarmac path, walking R a few meters then L at the split in the path. Take another R onto the cycle path.

5 Walk the cycle path, passing two benches. Cross two roads on this path and bear slightly L to stay on path after the last road crossing. Follow this path that winds L and heads uphill. Turn R at the top through a gate then keep the hedge on your L, walking across the top of the field. Continue through the farm gate and down through an alleyway, passing through a gate on your L. Walking directly ahead, use the small gate to exit to the road. Go L on the road to return to the castle.
