S Starting from the Ucheldre Centre, cross over the road towards the playing field and follow the footpath which runs alongside it. This path will lead you around to a gate on the other side of the field, leading into a marshy paddock. Follow the path along the edge of the paddock and through the gates until you reach an open area with telephone poles and a hillock ahead. Head straight over the hillock and through the next kissing gate. This marks the edge of Tre Wilmot site of special scientific interest.

1 Turn R and head through the next kissing gate. Follow the path through Tre Wilmot SSSI and then through the adjacent fields to the farm. You'll pass through the farmyard and then onto S Stack Rd. Turn R onto the road and look out for the well on your R. It is a ruined building with a domed roof in the field. After the well, take the signposted footpath up the track on the L, which leads into S Stack Cliffs nature reserve. Turn L at the fork and then immediately R, following the path along the edge of the reserve.

2 You'll reach a 4-way crossroads between fields enclosed by stone walls. Here, head R and then take the first footpath on the L. Continue until you reach a road and then turn L, then turn R and cross over the next road to follow the footpath straight ahead. This path will lead through fields and into an estate. Exit the estate by heading L and then turn R at the junction. Follow this road for around 1 km until you reach the roundabout and then turn R onto Garreglwyd rd.

3 Follow Garreglwyd road back to the start location.
