- S** Starting from Maes Offa turn R along the road and follow as far as the Post Office. Just after the PO turn R down the path and follow through the field and out onto a lane by the old Mill. At the Mill cross the stile into the field and cross the bridge and stile. Continue across the next field to the stile opposite then continue up the bank keeping the hedge on your R. At track turn L then on reaching the road take the path on the R.
- 1** There is a hedge in front of you. Go R of it but then stick close. The next stile is in the corner. Head towards the houses and uphill, three more stiles will lead you to the road at Pentre Farm. Take the stile by the farm gate and follow the white permissive waymark round the side of the black building to another stile. For two fields keep the boundary to your L. Then for two fields the boundary on your R. Join the road and turn R. Take the first footpath on the L into the woods. The path will take you past some red brick buildings.
- 2** The path leaves the trees and there is a red brick building in front of you. Turn L before this building heading further uphill. There is a waymark post in the gorse. Continue up with the boundary on your L. Two more stiles will see you at Nant y Ffrith woods. Once in the woods take the first path on the R (this is a permissive path so access could be withdrawn at any time. Please pay attention to any signs and potential forestry operations.) This will take you to the trig point. (at a slight fork in the path keep L).
- 3** Follow the path past the trig and descend through the trees. When the path meets the track turn R, at the junction go L. Follow down until you meet a junction and some swings. Go R and follow until you meet the road. Turn R. Follow the road until the first house. Take the gate into the field and head diagonally across towards the next gate. There is another gate just ahead. Go through and follow up past the telegraph pole keeping the boundary on your L. You will meet the road at a field gate. Go R crossing over the cattle grid.
- 4** Follow the road until at a farm it bends sharp L. At this point take the bridleway on the R. Keep the field boundary on your L and you will come to another gate. Follow this clear bridleway all the way to the road. (avoid any L hand turns) At the road turn R and follow for approx. 2km until you reach the turning for Tree Tops. At the next house after the Tree Tops turning you take the footpath on the R. Follow the fence line on your L down to the corner and another metal stile will lead you over. Follow the boundary on your R.
- 5** Cross over the stile into the woodland going steeply downhill. You will reach a stream and a stile at the bottom. Cross over and follow the path until it comes out the trees. Head L picking up a boggy track that will lead to a metal stile. Turn L and cross the bridge. Take a fairly straight line across the field to a stile in a wall. This area can often be boggy so take care. Cross diagonally L and you will find yourself back at the bridge by the Mill and you can retrace your first steps back to the village centre and Maes Offa.
